### OGDEN BANKERS TO AID OTHER BANKS

Ogden bankers yesterday endorsed the government's plan of issuing special treasury certificates of indebtedness to help finance the war in a resolution adopted at a meeting of the Ogden Clearing House association. D. W. Wilson, director of sales for the certificates, who came here from the federal reserve bank at San Francisco attended the meeting.

The resolution follows: "Resolved, that the Ogden Clearing House association reaffirm its previous endorsement of the plan formed by the government to finance the war by the sale of treasury certificates and that we urge each member bank to take its full allotment of each issue, even though in order to do so it becomes necessary to make use of the special re-discount privileges afforded by the federal reserve bank in connection with these certificates. We also urge our members to encourage their correspondent banks, both national and state, to take a full allotment of these treasury certificates."

### FURS TO BE HIGH IN COMING SEASON

LONDON, July 25.—Fur dealers in London say that furs in America and Great Britain are to be higher in price next fall and winter than ever. Alien furriers in London have advanced the price of the furs they are putting on the market 200 per cent, since spring and many of these were damaged skins.

In some of the London shops fur coats were displayed recently at prices ranging from \$200 to \$250 which a short time ago could have been bought for \$50 or \$75. "We are quite at the mercy of the Russian alien workman," a British furrier said. "They know more about the fur trade than anyone else. I would not guarantee the plainest fur coat at \$100, as, owing to the lack of proper workmanship and the shortage of furs, a coat is often made up of some pieces that are faulty, though some parts of it may be good."

"It is difficult just now to get the alien furriers to get repairing. They are keeping coats and fur wraps in hand for months, as they do not want to be bothered with repair work while they can be preparing new garments for their full harvests of abnormal prices."

### NORWAY CELEBRATES FIRST MEMORIAL

CHRISTIANIA, July 25.—Norway celebrated its first Memorial day on June 14 this year. The holiday, adopted in avowed imitation of the American observance, will hereafter be an annual institution.

The day was generally observed in all the Norwegian seaports in commemoration of the Norwegian seamen, killed in Germany's ruthless submarine campaign. All flags were flown at half-mast, not only on merchant ships and private buildings, but also on naval and coast guardships and public buildings of all kinds. All over the world, wherever there were Norwegian ships, the captains were instructed to observe the same ceremony. At Christiania the Norwegian Mates association arranged an impressive ceremony in the Seamen's church, which was appropriately decorated and was filled with a large congregation of relatives and friends of the lost sailors.

A HAND-OUT. Insurance experts contend that a woman who is in good health at the age of 45 is likely to outlive a man of the same age, because she is apt to be more temperate and is less liable to accident.
